**SUBJECT:** Discuss population served by Grover C. Dils Medical center, high school closest to Caliente, and plans for development in Lincoln County

**SUMMARY**

The catchment area for Grover C. Dils Medical Center is all of and only Lincoln County.

High school-aged students in Caliente are bused to Panaca for school since Caliente's C.O. Baston does not serve the general public. Panaca's Lincoln County High School is about 15 miles away from Caliente and takes about 45 minutes to get to on a school bus.

Two major developments are planned for the county: 1) the Lincoln County Land Sale made possible by the Lincoln County Land Act will have impacts, 2) the Coyote Springs development of 39,000 acres along highway 93 will also have impacts.

Ken Dickson agreed to provide a copy of the Lincoln County Mater Plan, which contains more detail about these issues.
